This is a position that won't just help you gain experience and a portfolio, this is an opportunity for you to change the future of children.

What this role is all about:

We are looking for the intern who is creative and highly motivated to make a difference. You need to already have some video and social media management experience along with a passion for connecting with our past and future followers and ambassadors. You will be responsible for creating a deliberate and intentional social media strategy that delivers results through organic and sometimes paid advertising. The strategy will build and grow brand awareness and create a positive online reputation.

Possible responsibilities are: creating original content for social media, engaging on social platforms with relevant individuals or groups on our behalf, managing paid ad campaigns, and creating videos to use on social media. Ideally, you should have a basic understanding of graphic design principles, paid advertising, and campaign calendar management, but we do offer training on these things wherever it's needed.

In short you will be responsible for:

- Writing persuasively and designing relevant, original, high-quality content (for all channels and ads)
- Building and engaging our community on a daily basis with the ultimate goal of turning fans into donors and volunteers
- Creating funny, emotional, and motivating videos for our social media presence.

- Experience with social media marketing
- Experience and/or knowledge of market research and paid advertising
- Ability to work on a team as well as independently
- Excellent written and verbal communication skills; proficient in English
- Superb organizational skills
- Excellent time management skills; able to prioritize
- Ability to plan and edit video

Nice to Have Skills:

- Ability to “perform” (speak confidently and energetically) in front of a camera

A note from the Executive Director:

If you want to apply for this position, the following should be true of you:

- You need to take initiative and be willing to make mistakes. We’ve failed lots in the past and try to make new mistakes every day because we believe that is how you learn the quickest. You need to trust us to be cool and you need to be vulnerable.
- You aren’t assumptive, you look for clarity and don’t mind looking ignorant because you care more about being valuable than looking smart. You will understand why you are doing what is asked of you because you know we expect you to use your brain and make judgement calls regularly.
- You should know yourself pretty well - knowing your strengths and weaknesses (bonus points if you include your top 5 strengths from Gallup’s Strengthsfinder assessment in your cover letter).

- You should be confident and friendly, not intimidated by others. You should be direct and to the point and not worry about hurting our feelings (but don't be mean).
